Professional Summary

Frontend Developer with **13 months of professional experience** building scalable, responsive web applications using **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS3**, **Tailwind CSS**, and **REST APIs**. Experienced in developing Single Page Applications (SPAs), reusable UI components, API integrations, state management, and responsive web design. Built and deployed **3 live projects** including an AI-powered platform integrating **Gemini API**. Skilled in Git, GitHub, Agile development, and modern frontend workflows. **Immediate joiner**.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, SCSS, JSX, TypeScript (Basic)

State Management: Context API, Redux Toolkit (Basic)

Frameworks/Libraries: React Router DOM, Tailwind CSS, Swiper.js, GSAP, Three.js

APIs: REST APIs, Axios, Fetch API, Gemini API, OpenWeather API

Developer Tools: Git, GitHub, Vite, VS Code, Netlify, Vercel

AI Tools: GitHub Copilot, ChatGPT, Claude, Cursor

Work Experience

Junior Frontend Developer

Apr 2025 – May 2026

Aashray Pvt. Ltd.

Pune, Maharashtra

- Developed and maintained responsive web pages using **React.js**, ensuring consistent UI across desktop and mobile devices for property listing, owner, and broker modules.
- Built reusable UI components for flat listings, user profile pages, and search/filter sections, improving code maintainability and development speed.
- Identified, debugged, and resolved frontend bugs across the platform, improving overall application stability and user experience.
- Collaborated with backend developers to integrate **REST APIs** for fetching flat listings, owner details, and broker information into the React frontend.
- Implemented responsive design fixes to ensure smooth functionality across different screen sizes and browsers.
- Worked closely with the design and product team to translate UI/UX requirements into functional React components.

Projects

Saarthi – AI-Powered Productivity & Wellness Platform | *React.js, Gemini API, React Router, Vite, Netlify* **Live | Code**

- Developed a React.js application integrating **8+ productivity and wellness modules** including AI chat, weather dashboard, journaling, meditation, and Pomodoro tools
- Integrated **Gemini API** to power an AI emotional support companion with real-time conversational responses
- Implemented OpenWeather API for live weather data and deployed on Netlify with React Router and Local Storage for persistent data

Thread – Fashion E-Commerce Web Application | *React.js, React Router DOM, Swiper.js, Context API* **Live | Code**

- Built a modular React architecture using **12+ reusable components**, reducing repetitive UI code by approximately **70%** and improving maintainability
- Implemented dynamic banner carousel using Swiper.js, product search, category filtering, and shopping cart with **Context API** and Local Storage persistence

Gemini Clone – AI Chat Application | *React.js, Gemini API, Vercel*

Live | Code

- Built a fully functional Gemini AI chat interface with real-time API responses, chat history, loading states, and error handling using React Hooks

Certifications

Introduction to Web Development – Meta, Coursera

Dec 2025

Master AI for Web Development – SimpliLearn

Dec 2025

Prompt Engineering for Web Developers – Scrimba, Coursera

In Progress 2026

Education

Bachelor of Computer Science

2019

Savitribai Phule Pune University – G.H. Rasoni College

Pune, Maharashtra

Award

Devathon – 2nd Place (among 20+ teams): Independently developed 100% of the frontend UI for a web application as part of a 2-member team, including responsive layouts, UX design, and presentation delivery.
